

Proposal for Corrigendum 1 for the 02 series of amendments to UN Regulation No. 55 (Mechanical couplings)

I. Proposal

Annex 5

Paragraph 5.1., amend to read:

"5.1. Drawbars of Class E shall satisfy the tests prescribed in Annex 6, paragraph 3.36."

II. Justification

This seems to be an obvious error. The paragraph 3.3. of Annex 6 is "Drawbar couplings and draw beams" and the paragraph 3.6 is "Drawbars". Subparagraphs 3.6.1.–3.6.3 prescribe the tests of the drawbars.

Finland has no information that this error has caused misinterpretation in type-approval. Therefore, we could probably correct it by a corrigendum without the need of supplement.
