

To successfully participate in the online meeting here are a few requirements and recommendations

STABLE INTERNET

Ethernet (LAN) cable is highly recommended – Wi-Fi often causes breakups when transmitting sound, this could cause low quality of sound and loosing parts of the speech for other participants.

USB HEADSET

Ideally with noise cancelling, to prevent the sound from the ear pad being picked up by the microphone

CAMERA

Please adjust your camera, it needs to be pointed to you.

QUIET WORKSPACE

Close all windows

(no external noises like outside traffic)

Be mindful with noises you create

(shuffling papers, mobile device sounds, keyboard strokes, moving the chair...)
