H$_2$ Gas Assets Readiness (H2GAR)
8$^{\text{th}}$ Session UNECE Group of Experts on Gas

Ana María García Domínguez
**HGAR: Why? How?**

1. Contribute to a robust development of new standards and technologies essential to the future gas transmission systems

2. Sharing current technical knowledge on \( \text{H}_2 \) gas asset readiness

3. Building a common view on the \( \text{H}_2 \) readiness of our infrastructures

4. Non overlapping with other ongoing works (in other organisations) and aimed to enable a smart and quick cooperation table for TSOs
**Scope - Internal Organisation**

- WG 1 – Pipelines
- WG 2 – Compressor Stations
- WG 3 – Separation Systems
- WG 4 – Metering / Other Instrumentation
- WG 5 – Safety
- WG 6 – Underground Gas Storage

**H₂ Gas Assets Readiness**
H₂ Gas Assets Readiness (H2GAR)
8th Session UNECE Group of Experts on Gas
