

Needs assessment on SEA: Introduction to the questionnaire

Online awareness raising workshop on Strategic
Environmental Assessment (SEA) in Tajikistan .

*Martin Smutny
International consultant to OSCE*

Purpose

- To analyse experience with environmental assessment tools in Tajikistan (mainly OVOS, SEE)
- To estimate readiness and capacities needed for introducing and applying SEA
- To get suggestions on priority actions to introduce and establish a SEA system in Tajikistan

Main sections

1. General information on the respondent's (personal and/or institutional) background
2. Planning and environmental (including health) context
3. Existing capacities for SEA and likely future needs
4. Priorities and actions needed to introduce and further develop a national SEA system.
