

ENERGY

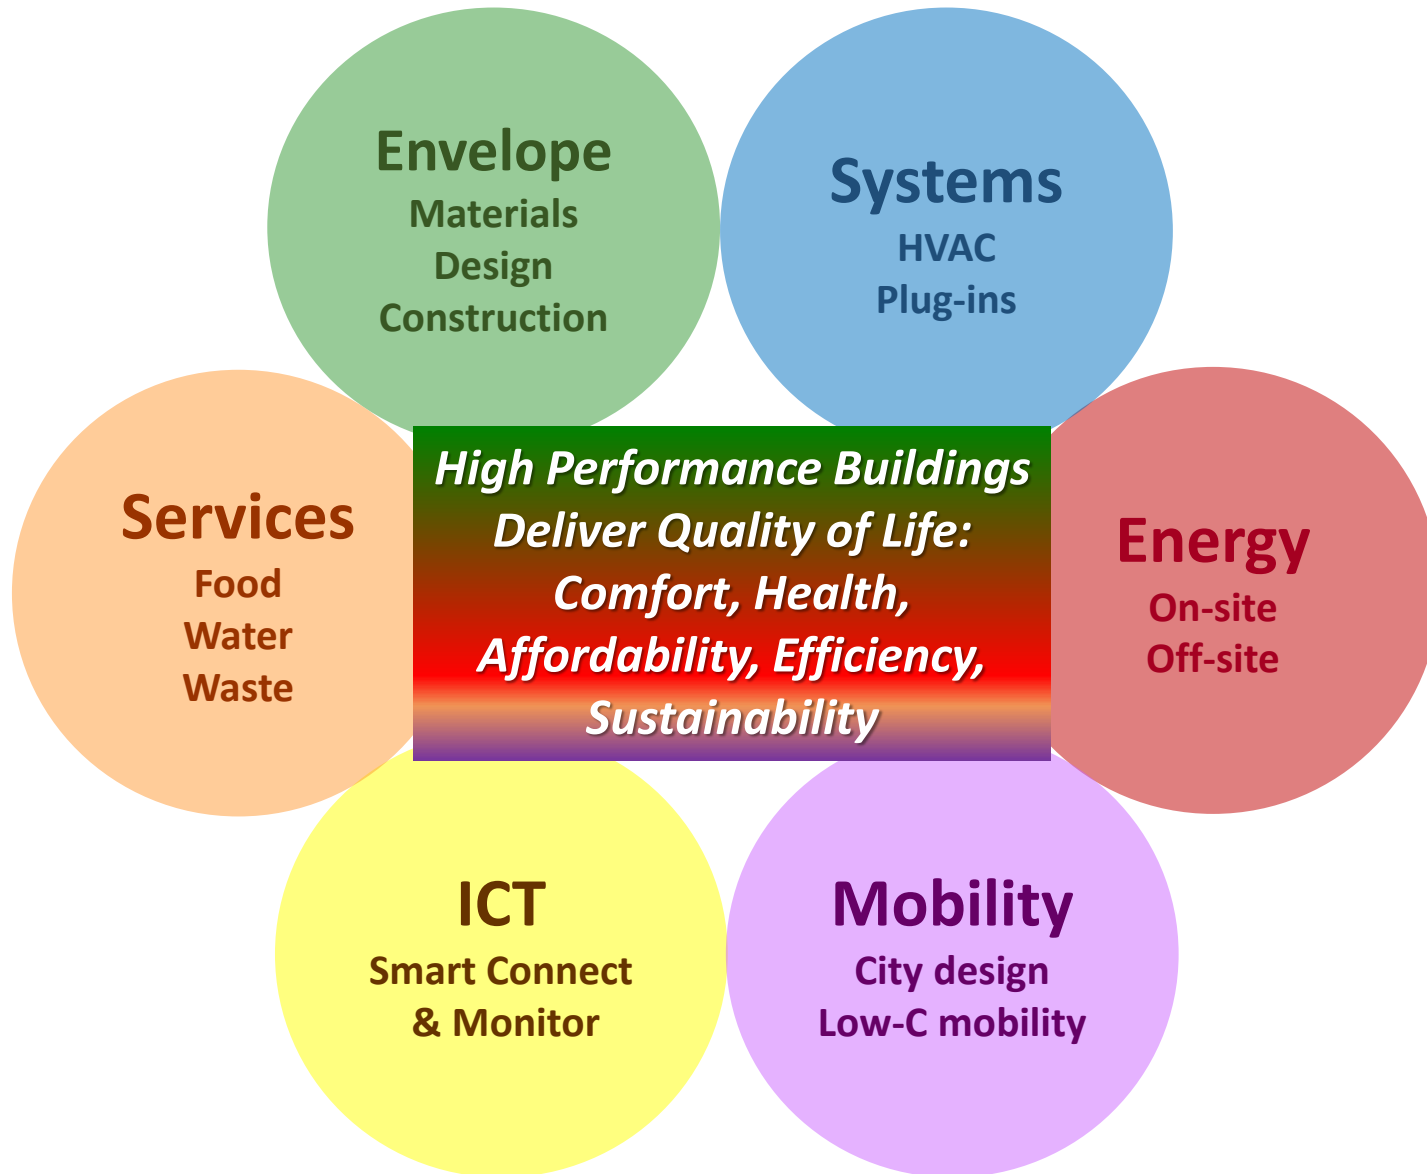

Contribution of Buildings to the 2030 Agenda for Sustainable Development

High Performance Buildings

ENERGY

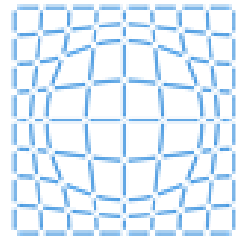

- **Energy and climate action (affordable and clean energy)**
- **Resilience (affordability, weather - heat, cold, wind)**
- **Health (comfort, indoor and outdoor air pollution)**
- **Social justice, equity**
- **Water (deluge, drought, contamination, sanitation)**
- **Resource conservation (land use, materials, waste)**
- **Mobility**
- **Technology access**
- **Systemic effectiveness and technical efficiency**

High Performance Buildings Initiative

International Centers of Excellence

HPBI

**Global Research
Consortium**

Demonstration

Thank you!
