Under the Convention on Long Range Transboundary Air Pollution

Task Force on Techno-Economic Issues

“Update of the TFTEI co-chairs’ report on the Task Force activities in 2020-2021”

Reference documents: **ECE/EB.AIR/WG.5/2021/1**
ECE/EB.AIR/WG.5/2021/4
ECE/EB.AIR/WG.5/2021/5

Co-Chairs:

Tiziano PIGNATELLI (Italy) & Jean-Guy BARTAIRE (France)

Update of the 2021 TFTEI co-chairs' report

Premise

Noted the organization of the 59th Session of the WGSR, as hybrid meeting, and the related limited time available during the plenary session, and the last update released at WGSR_58, in December 2020, the following slides are aimed at providing a summary update on the activities carried out by the Task Force in 2021.

Update of the 2021 TFTEI co-chairs' report

According to the work plan 2020-2021 the Task Force has started and/or completed the following main tasks:

- Review of the *Technical Annexes IV, V, VI, VIII, X and XI* (in progress), and related GD, as preliminary work to answer the questions in Annex I, section 1.6 of the “Draft annotated outline of the report on the review of the AGP” (ECE/EB.AIR/WG.5/2021/4)
- Joint EECCA_CG-TFTEI Workshop
- Finalization and submission to the UNECE Secretariat of the “*draft guidance document on reduction of emissions from agricultural residue burning*”, as official document, (ECE/EB.AIR/WG.5/2021/5) (subject of separate presentation)
- Collaboration with other technical bodies on questions in Annex I

Update of the 2021 TFTEI co-chairs' report

Review of the *Technical Annexes (TA) and GD* to the AGP

The review has started at the beginning of 2021, with a search in relevant literature (EU BREFs, US EPA docs, etc.), to highlight *new or upgraded abatement/mitigation technologies* and, detect in the existing annexes:

- *Missing information (gaps)*
- *Simplification of complex information*
- *Potential adaptations to facilitate the ratification by EECCAs.*

Questions in Annex I, (4.2.d, 4.2.e on black carbon, 6.3.a,b on methane), have been answered on the basis of TFTEI background technical documents.

To be completed by December 2021

Joint EECCA_CG-TFTEI Workshop

The joint workshop took place in virtual mode on April 26 and 27 (about 25-28 participants, each day).

- On Day 1, a number of EECCA countries reported on their significant progress in the implementation of *legislative instruments, permitting system, monitoring network* aimed at reducing pollutant emissions through the introduction of *BAT*.
- On Day 2, TFTEI illustrated the AGP review process, highlighting possible joint contributions with EECCAs.
- A number of works on *BC* and *PAH, methane, maritime shipping* and 2 sector analyses on *Aluminium* and *Cement*, were also presented.
