Case ACCC/C/2014/102, follow-up communication

Additional information on new cases of persecution of environmental activists in Belarus

Dear Chairman, Committee members and Secretariat
In accordance with paragraph 7 of Decision VI/8c, we inform you about new cases of violation of the rights of activists in Belarus, who exercise their rights under the Convention.

Earlier, Ecohome NGO informed the Committee about the situation with the prosecution of Brest activists opposed to the construction of the battery plant and seeking to exercise their environmental rights. To our great regret, we note the continuation of this unacceptable practice of persecution of activists in Belarus seeking to realize their environmental and civil rights.

Additional information attached in russian and english.

Best regards
On behalf of NGO Ecohome
Marina Dubina
