Mobility and Transport

CONNECTING EUROPE

Sustainable Development in the EU

- Next steps for a sustainable European future: European action for sustainability (2016)

- Reflection Paper 'Towards a Sustainable Europe by 2030' (2019)

- The European Green Deal (2019): implement the UN 2030 agenda and the sustainable development goals

  - Inclusion in the European Semester

Mobility and Transport

CONNECTING EUROPE

Monitoring report on progress towards the SDGs in an EU context

• Monitoring the progress towards the SDGs at EU level

• Report managed by Eurostat (first edition in 2017)

• 2021 edition under preparation : June 2021

    - A chapter for each SDG

    + chapters on Country profiles, Interlinkages, Covid Impact, Spillover effects

• Indicators available at Eurostat: Sustainable Development Goals

EU SDG Monitoring Report

- Indicator set:

  -structured along the 17 SDGs, each SDG is covered by 6 <u>main</u> indicators; multipurpose indicators

- Selection criteria:

  - Policy relevance

  - Quality criteria: compliance with the Code of Practice of European Statistics and certain requirements on frequency, timeliness, EU coverage, time coverage;

  - Balanced representation of the goals.

Mobility and Transport

CONNECTING EUROPE

Transport related indicators in the EU SDG Report

- **Road traffic deaths**

  ➢ Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable

  ➢ MPI: Goal 3. Ensure healthy lives and promote well-being for all at all ages

- **Relevance:**

- '[Towards a European road safety area: policy orientations on road safety 2011–2020](#)': halving the overall number of road deaths in the EU by 2020 compared with 2010

- Commission's [Strategic Action Plan on Road Safety](#) and [EU road safety policy framework 2021–2030](#): to reach zero road deaths by 2050

[Sustainable and Smart Mobility Strategy](#): making interurban and urban mobility more sustainable and healthy.

Transport related indicators in the EU SDG Report

- **Share of busses and trains in total passenger transport**

  - ➢ Goal 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

  - ➢ MPI: Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable

- **Share of rail and inland waterways in total freight transport**

  - ➢ Goal 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

- Relevance:

The European Green Deal: accelerating the shift to more sustainable modes of transport.

Transport related indicators in the EU SDG Report

- **Average CO2 emissions per km from new passenger cars**

  - Goal 12. Ensure sustainable consumption and production patterns

  - MPI: Goal 9 & Goal 13

+ contextual information: CO2 emissions of all passenger cars

- **Share of electric vehicles in the total new registrations (new)**

  - Contextual information Goal 12

Relevance:

Sustainable and Smart Mobility Strategy: Boosting the uptake of **zero-emission vehicles.** Among other things the strategy strives for at least 30 million zero-emission cars on European roads by 2030. By 2050, nearly all cars, vans, buses as well as new heavy-duty vehicles should be zero-emission according to the strategy
