Agenda item 11: Draft decision VII/... on reporting requirements

The EU and its Member States would like to thank the secretariat and the Bureau for the revised draft Decision on Reporting requirements (ECE/MP.PP/WG.1/2021/19).

We acknowledge the valuable input to the work of task forces, capacity-building activities, environmental performance reviews and other review programmes, as well as encourage and appreciate the efforts in activities and deadline for submissions of the national implementation reports.

We could approve the current proposal for a draft Decision on Reporting requirements and we would ask the Bureau, with the assistance of the Secretariat, to prepare the document for final decision making at MoP 7.
