Subject: ACCC/C/2013/90

Dear Ms Marshall

Further to my confirmation of receipt email, please find attached:

- (i) A scanned copy of approved drawing 07 Rev 3
- (ii) an coloured annotated copy of approved drawing 07 Rev 3 (evidence that was evidence before the Court) showing the intersections of proposed and existing lagoons at the given cross-sections X-X, A-A and B-B marked red, green and blue, respectively.

For example, the blue line indicates most clearly the depression that is the rear of the most “highly contaminated” lagoon.

Cross section C-C is the only cross-section which does not transect existing lagoon 1 (the most “highly contaminated” lagoon).

Approved drawing 07 Rev 3 needs to be read in conjunction with approved “site plan” 02 Rev 5, which shows how these cross-sections relate in plan form.

If you can confirm that the attached drawing is of a legible enough quality for the purposes of the ACCC, I can begin scanning the others.

Sincerely

Dean Blackwood
