Generations and Gender Survey Wave 1 - Consolidated

Title: Generations and Gender Survey Wave 1 - Consolidated
Alternate Title: GGS Wave 1 - Cons.
Publisher: Netherlands Interdisciplinary Demographic Institute - Langa Houtstraat 19, NL-2511 CV The Hague, The Netherlands

Abstract: The Generations and Gender Survey (GGS) provides micro-level data with the aim of significantly improving the knowledge base for social science and policymaking in Europe and developed countries elsewhere. In Europe 2020, the European Union develops a strategy "to help us come out stronger from the crisis and turn the EU into a smart, sustainable and inclusive economy delivering high levels of employment, productivity and social cohesion". The economic crisis affects not only day-to-day decisions, but also fundamental choices at all stages of people's lives: marriage and childbearing, the combination of employment and caring responsibilities for the young...

3. GGP as research infrastructure

- Hope for entry on the 2021 ESFRI Roadmap
- Long-term sustainability
- Financial (Consortium membership fee and GGS survey service fee)
- Data = FAIR = archive and DOI
Priorities as research infrastructure

1. Increased visibility and impact
   (Global + national roadmaps)

2. Financial stability
   (political support, increased # of CB members, steady # of surveys)

3. Continue transition to web
   (draw lessons and best practices)

4. Assess quality of new round of data and instrument
