English

Joint Meeting of Experts on the Regulations annexed to the European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways (ADN) (ADN Safety Committee)

Thirty-eighth session

Geneva, 23–27 August 2021

Item 4(b) of the provisional agenda

Proposals for amendments to the Regulations annexed to ADN: other proposals

Proposal to correct two UN 3295 entries in Table C

Transmitted by FuelsEurope

Introduction

1. In 3.2.3.1 – Explanations concerning Table C, the descriptor for Column (5) - Dangers – it is stated that:

“In the case of a chemical unstable substance, the code ‘unst.’ is added to the information.”

2. It was noted by FuelsEurope that 2 entries of UN 3295 in Table C, English version contain a deviating code: “Inst.” in Column (5).

3. This concerns the following entries, as listed on p. 241 (ADN 2021, English version):

3295	HYDROCARBONS, LIQUID, N.O.S. CONTAINING ISOPRENE AND PENTADIENE, STABILIZED	3	F1	I	3+inst.+N2+CMR	C	2	2	3	50	95	0,678	1	yes	T4 ³⁾	II B ⁴⁾	yes	PP, EP, EX, TOX, A	1	3
3295	HYDROCARBONS, LIQUID, N.O.S. CONTAINING ISOPRENE AND PENTADIENE, STABILIZED	3	F1	I	3+inst.+N2+CMR	C	2	2	3	50	95	0,678	1	yes	T4 ³⁾	II B ⁴⁾ (II B3)	yes	PP, EX, A	1	3; 44

4. It was noted that only the English version is affected.

Proposal

5. FuelsEurope proposes to correct this error, by replacing “Inst.” by “Unst.” in Column (5) in accordance with 3.2.3.1 Explanations concerning Table C, under Column (5) – Dangers and asks the Safety Committee to act as it deems appropriate.
