Subject: ACCC/C/2014/119 - additional questions

Dear Colleagues,

As we earmarked in our previous email concerning the case ACCC/C/2014/119 we translated parts of two documents that demonstrate how due account was taken of the outcome of the public participation in the decision-making on the 2012 amendment to the spatial development plan of the Lubuskie Voivodeship.

First document is titled "List of comments on the draft amendment to the Spatial Development Plan for the Lubuskie Voivodship - public inspection and consultation". The translated part of the document describes comments made by two NGOs and response of the public authority to these two comments.

The other document is titled "Statement of reasons for opinion on the draft amendment to the Spatial Development Plan for the Lubuskie Voivodship". The translated part of the document describes comment made by the Municipality of Gubin and response to that comment made by the public authority.

Should you have any questions or comments concerning the above mentioned documents, please contact me or Ms Elżbieta Kur - elzbieta.kur@klimat.gov.pl

Best regards
