

Enhancing National Capacities to Develop and Implement Energy Efficiency Standards for Buildings in the UNECE Region

Oleg Dzioubinski

Regional Adviser, Sustainable Energy Division,
UNECE

Project activities:

- ✓ Project webpage: <https://unece.org/sustainable-energy/regional-advisory-services/about-project>
- ✓ Study on **gap analysis** between the performance objectives set forth in the Framework Guidelines for Energy Efficiency Standards in Buildings and current energy efficiency standards and their implementation in the countries of South-Eastern and Eastern Europe, the Caucasus, Central Asia, and in the Russian Federation
- ✓ **Workshop** for stakeholders from the energy and housing sectors to validate the gap analysis (9 April 2021)
- ✓ **National studies** with a more detailed gap analysis in Armenia, Kyrgyzstan and Moldova

Project activities (cont.):

- ✓ Collaborative environment and **database of experts** on energy efficiency in buildings in the UNECE region
- Workshop for stakeholders from the energy and housing sectors to discuss and launch the regional and national studies (20 September 2021)
- Training seminars in Armenia, Kyrgyzstan and Moldova on high-performance energy efficiency standards in buildings (October-December 2021)
- Impact study on how to better implement best practices and guidelines developed by UNECE activities to address the issues of energy efficiency in buildings (January-February 2022)

Thank you for attention!
