

UNECE

30th session

COMMITTEE ON SUSTAINABLE ENERGY

CONCRETE ACTIONS TO ATTAIN ENERGY FOR SUSTAINABLE DEVELOPMENT

22-24 SEPTEMBER 2021 | PALAIS DES NATIONS | GENEVA

ENERGY

Pathways Programme

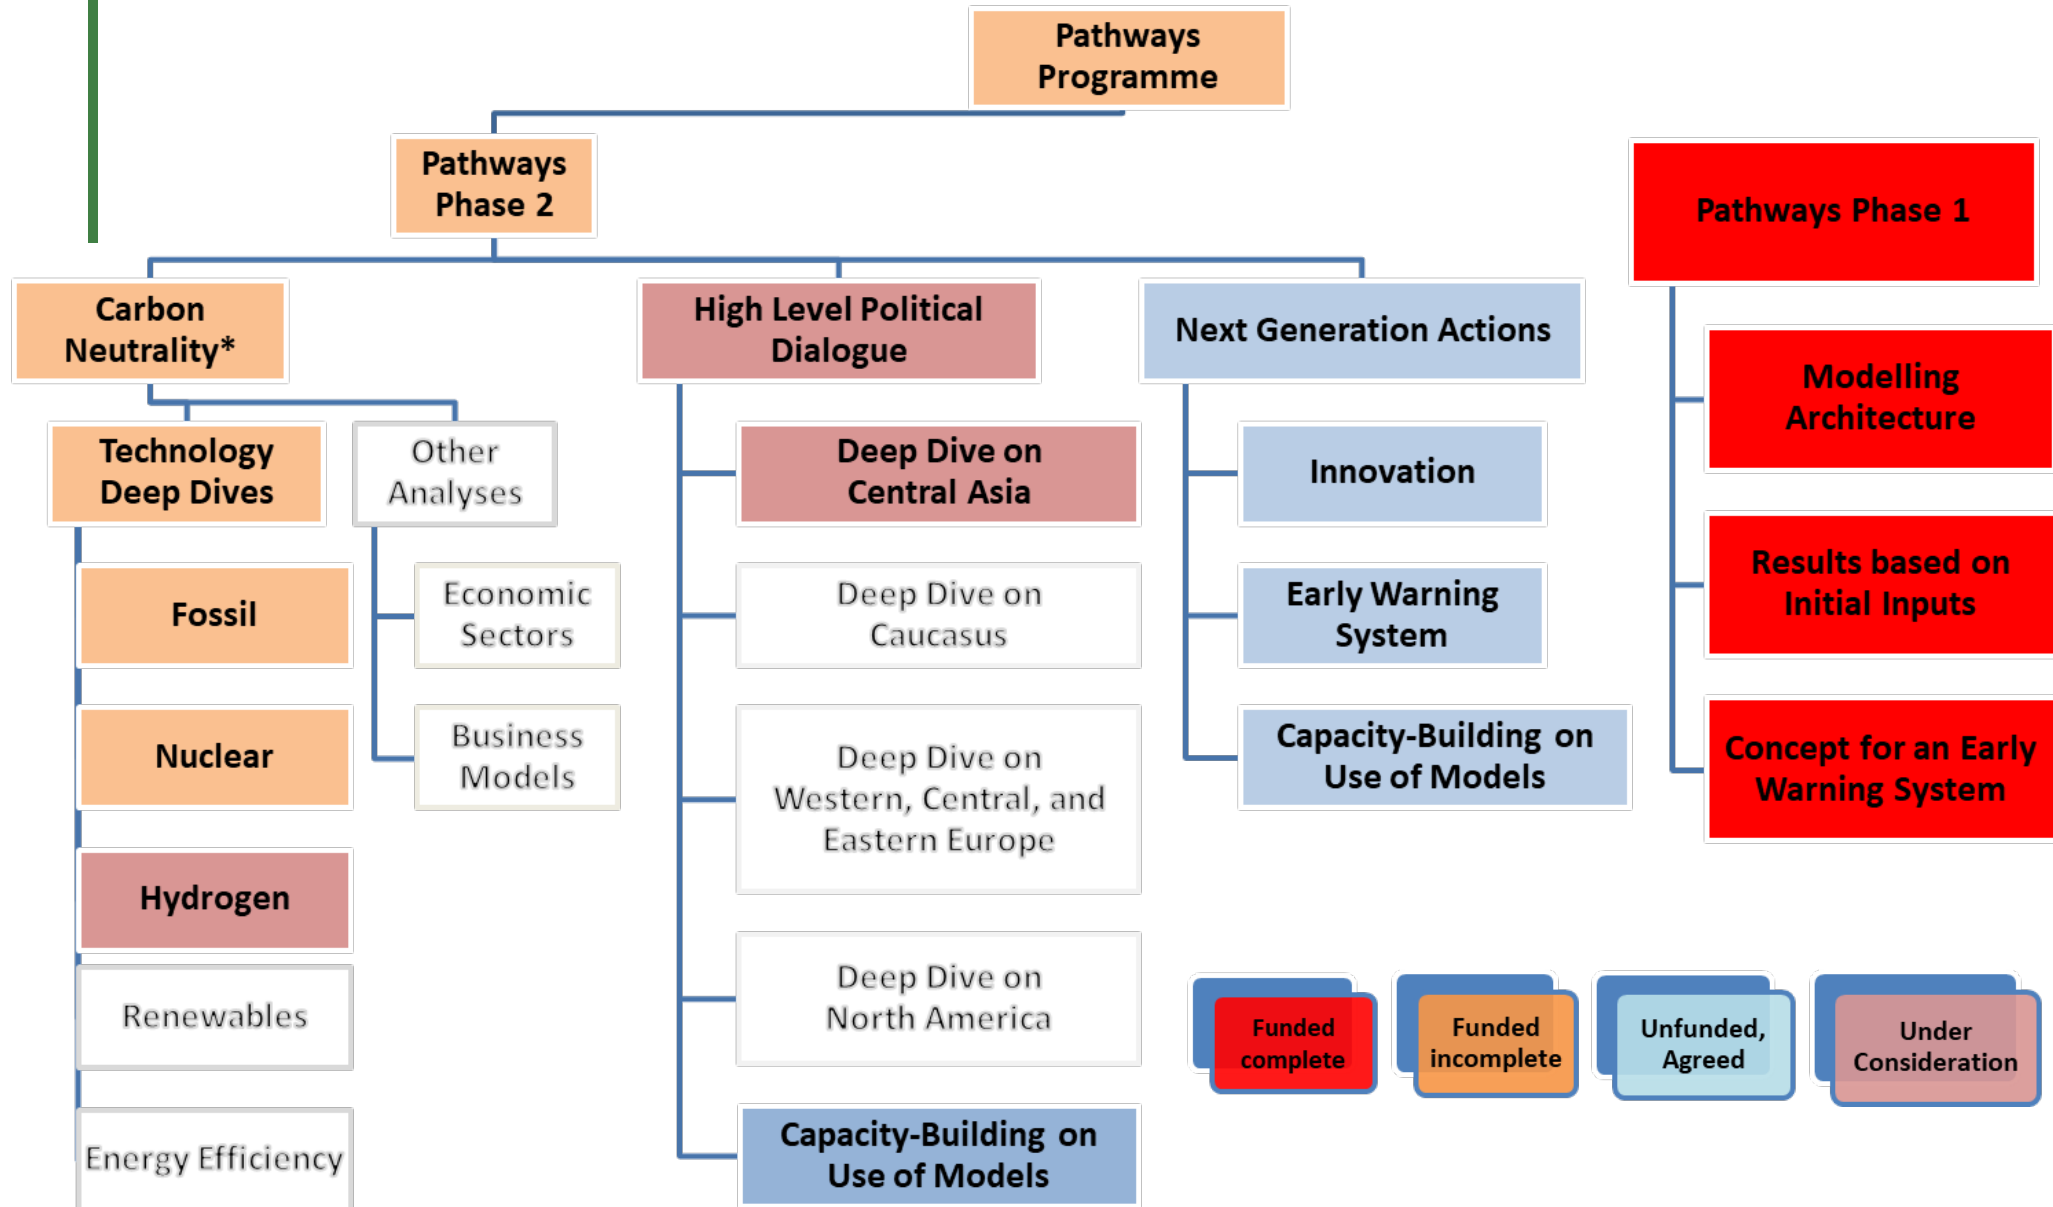

- UNECE's EXCOM requested preparation of a concept note for the Pathways Programme to provide context for when additional project proposals were submitted for approval.
- Consultations on the preparation of the concept note was conducted with the same consultation group convened for the strategic review.
- Consultation meetings took place on February 26, April 16, and June 28, the same dates as the strategic review.
- The concept note was prepared, agreed, and distributed to the Committee for information.

Pathways Programme

ENERGY

Conclusions and Recommendations

ENERGY

8. Noted the Pathways to sustainable energy programme concept note (ECE/ENERGY/2021/5).

9. Called on member States to provide extrabudgetary resources to enable continuation of the Pathways programme, including phase 2 of the Pathways project (with its sub-regional focus, early warning system, and training in the use of its analytical architecture), the carbon neutrality project (with its review of technologies, business models, and additional economic sectors) and mandated the secretariat to continue raising funds from other partners, and the global tracking framework to track progress of ECE member States to the energy-related objectives of the 2030 Agenda and the Paris Agreement.
