Inland Transport Committee

Working Party on the Transport of Dangerous Goods

Joint Meeting of the RID Committee of Experts and the
Working Party on the Transport of Dangerous Goods

2 September 2021

Geneva, 21 September – 1 October 2021

Item 4 of the provisional agenda

**Harmonization with the United Nations Recommendations
on the Transport of Dangerous Goods**

Additional proposal concerning harmonization with the United Nations Recommendations on the Transport of Dangerous Goods

Transmitted by the European Industrial Gases Association (EIGA)

Introduction

1. The informal working group on “Provisions on equipment for tanks and pressure receptacles” lead by EIGA submitted official document ECE/TRANS/WP.15/AC.1/2020/65 to the RID/ADR/ADN Joint Meeting held in September 2020 giving proposals for consequential amendments to RID/ADR to align with the provision on pressure receptacles and their closures adopted by the UN Sub-Committee of Experts on the Transport of Dangerous Goods. Document ECE/TRANS/WP.15/AC.1/2021/24 records that these proposals were adopted by the ad hoc working group on harmonization.

2. The EIGA working group has recently realised that there was an omission in their proposals in paper 2020/65: there are no requirements specified for marking RID/ADR pressure receptacle closures in section 6.2.3. This paper provides the missing text.

Proposal

3. Insert a new paragraph as follows.

6.2.3.9.8 *Marking of closures for refillable pressure receptacles*

6.2.3.9.8.1 Marking shall be in accordance with 6.2.2.11.”
