

14 September 2021

**Online meeting of the Group of Experts on Gender Statistics, 28–29 September 2021**

## **ABSTRACT**

<b>Title</b>	EIGE's data collection on women and men in decision - new dimensions: Covid-19 and Environment and Climate change
<b>Author Name</b>	Ligia Nobrega
<b>Author Organization</b>	European Institute for Gender Equality (EIGE)
<b>Session</b>	Emerging topics and data gaps

EIGE is expanding data collection related to decision-making in the domain of environment and climate change aligned with wide-ranging topics included in the European Green Deal. New datasets are also being added assessing gender balance of women and men participating on boards, taskforces and/or other decision-making positions related to COVID19 crisis.
