

The Destatis Monitoring system: How to measure success? How to steer communication?

Sebastian Bisch (Destatis, Germany)

sebastian.bisch@destatis.de

Abstract

Last year, Destatis set up a media monitoring system for our external communications that serves as a steering tool in our current transformation process. We present the basics of monitoring as well as the most important KPIs and describe the influence of media monitoring on our key strategic target: how do we gain the widest potential reach as efficiently as possible?
