Legal Basis / Motivation

Legal Basis: 1958 Agreement Revision 3 Schedule 5:

“... the approval markings required by UN Regulations may be replaced by a Unique Identifier (UI) preceded by the symbol , unless specified otherwise in the UN Regulations.”

Device markings (depending on Regulation text)

- Approval marking
- Other marking
-

Marking example for lighting & light-signalling Regulations

Motivation / Text of the Regulation (R148, R149, R150)

The (traditional) **Approval Marking** specifies (Example R148):

1. The number of the type approval
2. The contracting party (country) who is responsible for the type approval
3. The Regulation Number the device was type approved to
4. The status of the Regulation at the time of type approval
5. The different functions that are included in the device
6. Any possible restrictions in mounting height
7. Any possible restrictions in mounting position
8. Any possible restriction to the number of devices necessary (D or Y)

IMPORTANT:

ALL these markings must be visible after the installation of the device on the vehicle

MAY BE REPLACED BY

The (new) **Unique Identifier Marking** specifies:

1. The unique number for accessing the DETA

270650

IMPORTANT:

ALL these markings must be visible after the installation of the device on the vehicle

With UI currently required information becomes invisible, unless you are one of the existing user groups in DETA

Motivation / Possible solutions

Solution A

Redefine the approval marking

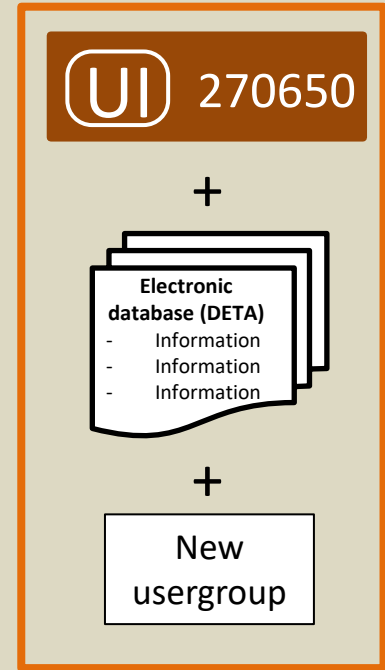

Result: All the necessary information is available as it is not replaced by the UI

Solution B

Amend DETA

OR

Result: All the necessary information is available but part of DETA

Motivation / Reason for the chosen solution

Example: Device used as a beam contributor for different AFS systems

Approval marking

(On any fixed part visible after installation i.e. lens)

60+ mm

Unique Identifier

(On any fixed part visible after installation i.e. lens)

The presence of the marking in front of the optics could have an influence on the quality of the optical system

Details of the amendment to DETA

Proposal - Make the relevant information available to those dependent on the content

Part A: Document management

- **Create a new „Summary“ document in DETA (PDF)**

showing for example, depending on GRs decisions for each Regulation:

- *Description*
- *Traditional markings / Explaining text*
- *If they exist, limitations to the installation and/or use*

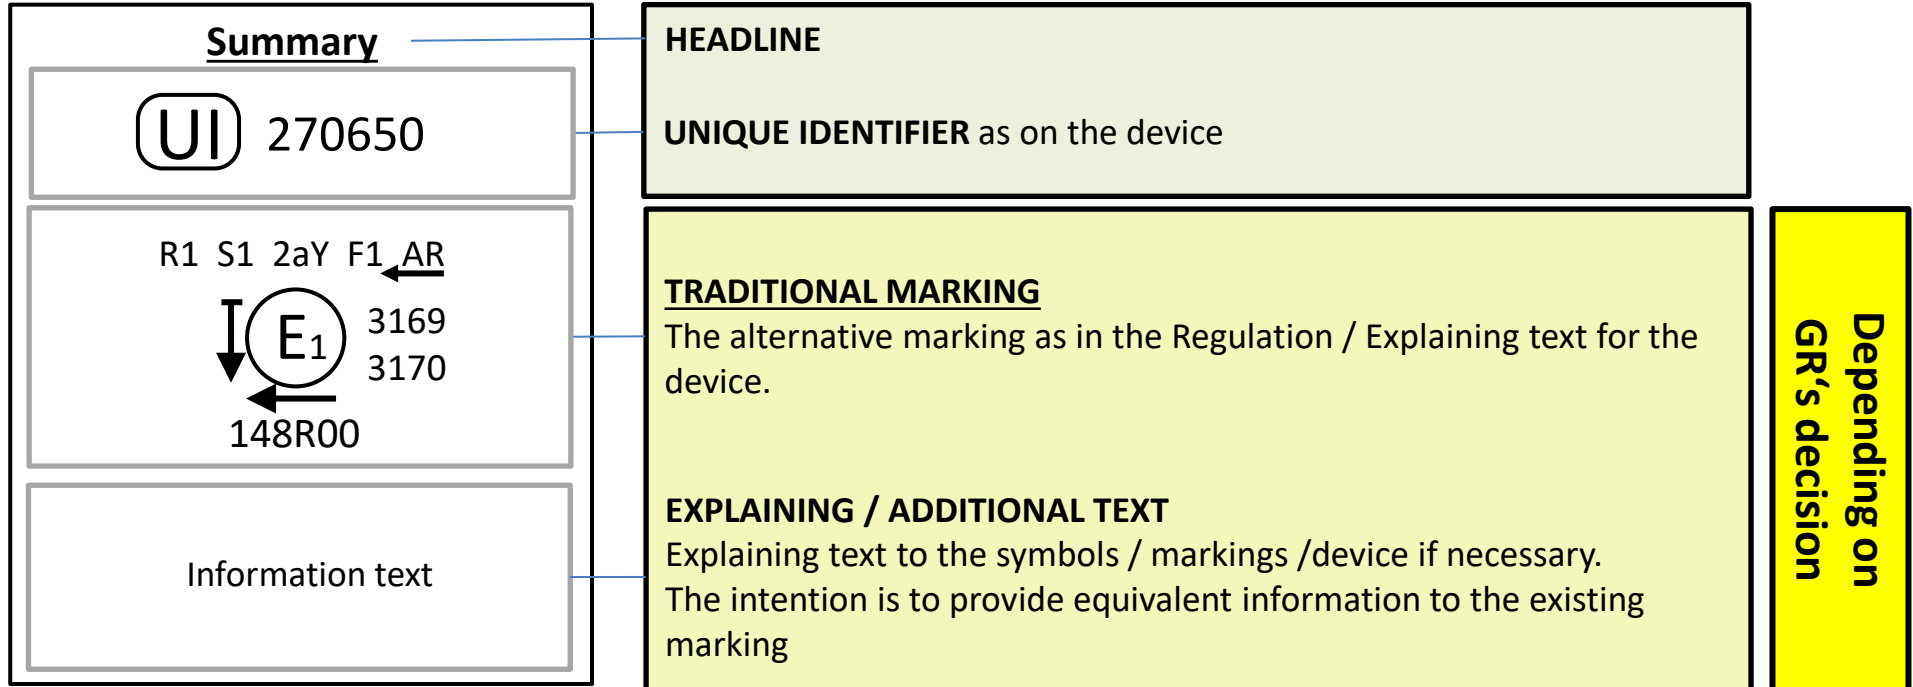

Part B: Usergroup management

- **Create a new usergroup in DETA**
- Usergroup level: Public (e.g. law enforcement, repair shops, etc.)
- Usergroup rights: Read only the „Summary“ document
- The public has only access to the „Summary“ document stored in DETA via a separate web application.

Part A – „Summary“ document management

The above information, except for the alternative marking, is available somewhere in the existing documents in DETA. According to the currently proposed usergroups matrix, this information could be found by authorised experts only, but not by anyone else. The existing documents also contain a lot of information that is not for public view in any case!
