EURO-ASIAN COUNCIL FOR STANDARDIZATION, METROLOGY AND CERTIFICATION (EASC) is recognized by ISO as the Regional Organization for Standardization

ISO Council Resolution 26/1992
BASIC ORGANIZATION FOR TRAINING, PROFESSIONAL DEVELOPMENT AND RETRAINING
(VISION OF NATIONAL AUTHORITIES AND EASC BUREAU ON STANDARDS)
The Base Organization of the Member States of the Commonwealth of Independent States for training, advanced training and retraining of personnel in the field of standardization, metrology, quality management and certification (Base organization) is created in order to implement the agreed policy of the member states of the Agreement and in development of Article 3 of the Agreement on the implementation of a coordinated policy in the field of standardization, metrology and certification.

Cv. 3 “The parties will pursue an agreed policy in the field of harmonization of technical regulations, standardization, metrology and conformity assessment in the following areas: coordination of programs for training and advanced training of personnel in the field of harmonization of technical regulations, standardization, metrology and conformity assessment.”
EASC 2030 Strategy

III. Main directions of cooperation

EASC is responsible for the formation and implementation of an agreed policy in the field of technical regulation, interstate standardization, metrology, conformity assessment, accreditation and supervision (control) in certain areas of activity. Carrying out joint and coordinated actions of the states parties to the Agreement in the field of quality infrastructure is aimed at ensuring stable and reliable work of the national authorities of the states parties to the Agreement in terms of the development and harmonization of regulatory technical documentation, analysis of management efficiency in certain areas, including systemic coordination of programs, and also training specialists in the field of technical regulation, standardization, metrology, conformity assessment and accreditation, interaction within the framework of cooperation at the regional and international levels, the introduction of modern information technologies into practice.
The creation of the Base Organization is included in clause 5.3.1 of the Action Plan for the implementation of the EASC 2030 Strategy

</tr>
</tbody>
</table>
The Base Organization is created on the basis of the principle of voluntary participation of interested states parties to the Agreement in terms of educational activities in the field of standardization, metrology, accreditation and certification.

The Base Organization is the working body of the EASC. Goals, tasks, rights and organization of work are established in the Regulations on the Base Organization.
Gender factors in EASC standardization
Achieve Gender Equality and the possibility
The Declaration on Gender-Sensitive Standards and the Development of Standards (UNECE Declaration) was considered on May 26, 2021 at the 61st meeting of the Scientific and Technical Commission for Standardization. It was recommended that national standardization bodies consider the possibility of acceding to the UNECE Declaration.

The Republic of Moldova and Georgia have already signed the Declaration earlier.

The declaration is advisory in nature (contains examples of best practice) and has already been signed by 55 national standards bodies, international and regional organizations.
