Monitoring of SDG Indicators in the CIS Region

In the CIS countries a lot of work is being done to disaggregate poverty indicators.

4 Proportion of the population below the national poverty line.

YOUTH IN THE COMMONWEALTH OF INDEPENDENT STATES

In the countries of the Commonwealth, close attention is paid to youth policy issues.

The CIS Statistical Committee, supported by the United Nations Population Fund (UNFPA), has prepared in 2021:

- The "Youth in the CIS: a statistical portrait" collection (4th edition) (electronic version);
- The "Youth in the Commonwealth of Independent States and the Sustainable Development Goals" booklet.

Materials were presented at the meetings:
- The Consultative Council for Labor, Employment and Social Protection of the Population of the CIS Executive Committee;
- Interparliamentary Youth Assembly of the CIS Member States.

SDG 1 and SDG 10 monitoring challenges

- **Incomparability of data between countries for a number of indicators.**
   - indicator 1.3.1. Proportion of population covered by minimal thresholds/social protection systems;
   - indicator 10.1.1. Growth rate of household expenditures or per capita income among the poorest 40% of the population and across the overall population.

- **Lack of continuous time series.**

- **Indicators that are difficult to develop.**
   - indicator 1.4.1. Proportion of the population living in households with access to basic services.
