

FORUM CITOYEN

"How do we want to inhabit the territory of Geneva to better live together in respect of nature and face climate change?"

KEY CHALLENGES

- Ensuring diversity
- Providing necessary resources to facilitate the mission of the forum members
- Producing a report accepted by majority
- Bringing report to attention of public authorities and other useful entities
- To contribute to decision-making process and public policies of the canton concerned

KEY LESSONS LEARNED

- Possibility to reach a consensus between people of different backgrounds and opinions.
- Citizens feel invested and valued by such an approach.
- Specialist climate training raises climate awareness
- Relevance and effectiveness of public participation.

EXPECTED OUTCOMES

- Produce a final opinion listing 104 original and ambitious measures accepted by 97% unanimously or by a strong majority
- Contribute to public policies facilitate ecological transition.

FUTURE STEPS

- Analysis of measures
- Various public debates
- Possible initiative renewal for a new forum
