

**Case study for Road Map on Statistics for SDGs 2.0**  
**Kyrgyzstan: National Reporting Platform on Statistics for SDGs**

**Description**

The national SDG reporting platform is an essential element in building an effective system for monitoring the SDG achievements. For this purpose, the statistical office of the Kyrgyz Republic adapted the Open SDG platform. Open SDG is an open source, free-to-reuse platform for managing and publishing data and statistics related to the UN Sustainable Development Goals (SDGs). Key features of the Platform<sup>1</sup>:

1. Machine-readable data
2. Data visualizations: graphs, data tables, and maps
3. Multilingual: already available in the six official UN languages and more, using the SDG Translations resource
4. Fully customizable

Currently, the Kyrgyz Open SDG Platform hosts data and metadata for global and national SDG indicators. Among advantages of the platform are the storing data in SDMX format, and availability of platform in 3 languages (English, Russian and Kyrgyz).
