

Case study for Road Map on Statistics for SDGs 2.0
Kyrgyzstan: Traditional sources and MPI calculator

Description	<p>To provide a holistic understanding of the lives of the poor while enabling more effective and efficient poverty reduction policymaking Kyrgyz Republic developed National Multidimensional Poverty Index (NMPI), which measure 1.2.2 “Proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions”. National MPI serves two purpose: monitor global SDG target 1.2. “By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions and monitor Target “1.16. Ensuring equitable social protection” National Development Strategy of the Kyrgyz Republic 2040. NMPI of the Kyrgyz Republic includes eleven indicators in five aspects of measurement: health, monetary poverty, housing conditions, food security and education. For calculation NMPI the data of household survey was used.</p> <p>To provide a holistic understanding of the lives of the poor while enabling more effective and efficient poverty reduction policymaking Kyrgyz Republic developed National Multidimensional Poverty Index (NMPI), which measure 1.2.2 “Proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions”.</p>
Advantages	<p>National MPI serves two purpose: monitor global SDG target 1.2. “By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions and monitor Target “1.16. Ensuring equitable social protection” National Development Strategy of the Kyrgyz Republic 2040.</p> <p>NMPI of the Kyrgyz Republic includes eleven indicators in five aspects of measurement: health, monetary poverty, housing conditions, food security and education.</p>
Challenges	<p>Interpretation of the indicator by users.</p>
Future steps	<p>To develop a Child National Multidimensional Poverty Index.</p>
