Programme UNECE-FAO
LATIN AMERICA TRAINING WORKSHOP
6 December 2021

ACCELERATING ACTION FOR THE SUSTAINABLE AND CIRCULAR
GARMENT AND FOOTWEAR INDUSTRY -
INNOVATION FOR INCLUSIVE COTTON VALUE CHAINS

A transition to circular economic models is key to improved sustainability in the garment
and footwear sector - a shift that can be realised with verifiable production data, delivered
through improved supply chain traceability and transparency.

The event, part of UNECE project on Traceability for Sustainable Garment and Footwear,
consists in a one-day training workshop to provide stakeholders with the tools they need to
drive change towards sustainable and circular value chains in the garment and footwear sec-
tor and also collect inputs for face to face event with the industry on April 2022.

Participants will learn about the toolbox, policy approaches, ongoing blockchain pilots on
textile industry with focus in the cotton value chain and experiences on the ground in the
Latin American region.

The workshop is organized jointly by UNECE and FAO Regional Office for Latin America and
the Caribbean, in conjunction with the project “Enhancing Traceability and Transparency for
Sustainable and Circular Value Chains in Garment and Footwear”, jointly implemented with
the UN’s International Trade Centre (ITC), with financial support from the European Union.

DAY 1 (MORNING) 6 DECEMBER 2021

10.30-11.00
(Santiago)
OPENING SESSION
• FAO RLC, Luiz Bedusci, Policy Officer
• UNECE, Elisabeth Tuerk, Economic Cooperation and Trade Division Director

14.30-15.00
(Geneva)
INTRODUCTION
• FAO RLC, Adriana Gregolin, Regional Coordinator +Cotton Project, The +Cotton
Project: Innovations and opportunities of the cotton sector for the LAC Region

INSPIRATIONAL VIDEO
• +Cotton Project, Cotton: The fiber that connect us
