

Machine Learning Project 2021 – Future Directions

Eric Deeben, UK Office for National Statistics
Eric.Deeben@ons.gov.uk

Introduction

- UNECE High-Level Group for Modernisation of Statistics
 - 2019 & 2020
 - WP1: Pilot Studies
 - WP2: Quality
 - WP3: Integration
- ML community: strong interest in continuing the work of UNECE HLG-MOS ML project

International Working Group for ML 2021

- Led by the UK Office for National Statistics with support from UNECE
- Focus on developing & implementing ML for official statistics
- Duration: Jan-Dec 2021

This Session

- Identify key working areas for the IWG ML 2021
 - What would you like the group to focus on?
 - Live polls on data, skills, IT, strategy, stakeholders
- Invite you to join the ML Learning and Sharing Community
 - Join the UN Global Network of Data Officers and Statisticians
 - [Signing up for the Network](#) is straightforward
 - Then, join the group: Machine Learning for Official Statistics
 - Any issues, please email Inkyung Choi at choii@un.org

Next Steps...

- Formulate workstrands
- Identify members to lead key areas
- Agree Terms of Reference
- Agree key deliverables and regular meetings
- Manage Wiki and the Learning and Sharing Community

ML Group 2021 - Global Network of Data Officers and Statisticians

The screenshot shows a Yammer group interface. At the top, the Yammer logo and 'Global Network of Data Officers and Statisticians' banner are visible. The group name is 'Machine Learning for Official Statistics' (PRIVATE), with a 'Joined' button. The group description is 'Open group for anyone who is interested in using machine learning for official statistics'. Below the group header, there are navigation tabs for 'NEW CONVERSATIONS', 'ALL CONVERSATIONS', 'FILES', and 'SEARCH'. A central area contains a text input field with the placeholder 'Share something with this group...' and a 'Post a message' prompt. To the right, there is a 'MEMBERS (3)' section with profile pictures and an 'INFO' section with a description: 'How do you use machine learning in your organisation, in what application area do you use it? What worked well and what didn't go well? Do you have any material you want to share with the group? - Feel free to share your experience and knowledge here!'. There are also sections for 'GROUP ACTIONS' (View Group Insights), 'NETWORK RESOURCES' (UNECE HLG-MOS ML Proje...), and 'RELATED GROUPS'.
