new proposals

### Comments on ECE/TRANS/WP.15/AC.1/2022/14 - Alternative wording for Section 1.10.4

Transmitted by the Government of France

#### Introduction

1. France would like to thank Norway and Sweden for their proposal to modify section 1.10.4 in relation with 1.1.3.6. As proposed the two first sentences of section 1.10.4 could be modified for clarity and consistency with 1.1.3.6.
2. However, even if the deletion of UN numbers redundant with 1.1.3.6.2 is relevant, it seems important to keep the cross-reference to 1.1.3.6.2, in order to make the different parts and chapters of RID/ADR consistent.
3. In order to avoid redundancy related to the list of UN numbers but also in order to keep consistency between the different chapters of RID/ADR, France proposes amending the first sentence by deleting the list of UN numbers and mentioning only the reference to the dangerous goods listed in 1.1.3.6.2.
4. In order to clarify these points France proposes the following alternative proposal for the amendments
5. France believes that the second sentence is not necessary with these changes because the text only refers to the quantities and not the type of containment. However to allow discussion on that we have kept the redundant sentence in square brackets with stricken through text

#### Proposal
