

12-13 April 2022

PAN-EUROPEAN REGIONAL PREPARATORY MEETING FOR THE UN 2023 WATER CONFERENCE

The Regional Preparatory Meeting will provide a platform for UNECE member States and stakeholders to review progress and showcase effective ways to implement the goals and objectives of the International Water Action Decade, and water-related goals in the 2030 Agenda for Sustainable Development.

Main Themes

Access to water and sanitation, transboundary and intersectoral water cooperation, ecosystem and biodiversity conservation, pollution prevention, floods and droughts, financing water, circular economy etc.

Outcomes

The meeting will provide inputs on regional priorities, challenges and good practices into the UN Secretary-General report and the United Nations 2023 Water Conference more broadly.
