

Committee of Experts on the Transport of Dangerous Goods and on the Globally Harmonized System of Classification and Labelling of Chemicals

Sub-Committee of Experts on the Transport of Dangerous Goods

Sixtieth session

Geneva, 27 June-6 July 2022

Item 6 (b) of the provisional agenda

Miscellaneous proposals for amendments to the Model Regulations on the Transport of Dangerous Goods: packagings, including the use of recycled plastics material

Correction to P200, UN 1001 and UN 3374

Transmitted by European Industrial Gases Association (EIGA)*

Introduction

- In P200, two filling ratios are given for ACETYLENE, DISSOLVED (UN 1001) and ACETYLENE, SOLVENT FREE (UN 3374). For the first test pressure, special packing provision “c, p” are mentioned, but not for the second test pressure. This provision should apply for both test pressures.
- EIGA considers these omissions should be corrected.

Proposal (new text underlined>

- In 4.1.4.1, EIGA proposes to add in table 2 the special packing provision “c, p” also for the second test pressure (52 bar) for both UN 1001 and UN 3374, as follows:

1001	ACETYLENE, DISSOLVED	2.1			X			X		10	60 52		c, p <u>c, p</u>
3374	ACETYLENE, SOLVENT FREE	2.1			X			X		5	60 52		c, p <u>c, p</u>

Justification

- This proposal will correct the mistakes and increase safety.
