Subject: ACCC/M/2021/4 (European Union) - plan of action

Dear communicants and observers,

This is to inform you as communicants and observers in case ACCC/C/2015/128 (European Union) that, as requested by the Aarhus Convention Compliance Committee, the European Commission has prepared a plan of action with regard to this case.

The plan is available on the website of Directorate-General for Environment as a news item at <https://ec.europa.eu/environment/aarhus/> and is also attached here for your convenience.

As outlined in section c of the plan, during spring 2022, the Commission plans to launch a public consultation to collect evidence and views from the public as input to the assessment of the implications of the findings and analysis of the options available. The plan of action will be updated to include the links to the Call for evidence and consultation questionnaire, once these will be available, and will then be submitted to the Aarhus Convention Compliance Committee.

Kind regards,

Zsuzsanna BELENYESSY
Legal Officer, Aarhus Convention

European Commission
Directorate-General Environment
Unit E.04
