UN/CEFACT Town Plan

- Distinguishes UN/CEFACT Standard APIs from other APIs using UN/CEFACT semantic standards
- A map of business areas and API resources (i.e., the plan)
- Governance rules for changing the plan (e.g., a new area or resource)
- API version control (e.g., major.minor) and lifecycle rules (e.g., draft, stable, deprecated)
- Publishing model for JSON, JSON-LD vocabulary, and API specifications.
- Implementation conformance criteria (i.e., how you can claim compliance)
- Community feedback mechanisms (i.e., what are the needs of the implementers and API consumers)
## UN/CEFACT Town Plan

<table>
<thead>
<tr>
<th>UN/CEFACT Domain</th>
