Interpretation of the Regulations annexed to ADN

Corrections to the Regulations annexed to ADN

Section 3.2.3 of ADN, Table C – Typographical errors in UN Nos. 1268 and 3256

Transmitted by the Government of Germany\(^*\), \(^**\)

1. Three entries for UN No. 1268 and one entry for UN No. 3256 have had a typographical error in the name in column (2) of Table C since the first edition of ADN 2009, in the English and German versions. The French and Russian versions are correct.

2. The names in German, English and French are as follows:

**German**

UN 1268
ERDÖLDESTILLATE, N.A.G. oder ERDÖLPRODUKTE, N.A.G (NAPHTA) 110 kPa < pD50 ≤ 175 kPa

LIQUIDE TRANSPORTÉ À CHAUD, INFLAMMABLE, N.S.A., ayant un point d’éclair supérieur à 60 °C, à une température égale ou supérieure à son point d’éclair (MÉLANGE DE NAPHTALINE BRUTE)

**Proposal**

3. In the English version, in 3.2.3, Table C, replace “NAPHTA” with “NAPHTHA” for the corresponding entries in UN No. 1268.

4. In the German version, in 3.2.3, Table C, replace “NAPHTA” with “NAPHTHA” for the corresponding entries in UN No. 1268 and replace “ROHNAPHTALIN-GEMISCH” with “ROHNAPHTHALIN-GEMISCH” for the corresponding entries in UN No. 3256.

**Justification**

5. In German and English, instead of “naphta”, the correct spelling is “naphtha”, i.e. with “tha” at the end instead of “ta”. The French spelling seems correct, with only a “t” instead of “th”.

6. In the view of the German delegation, this is not an amendment to the Regulations annexed to ADN with effect from 1 January 2025, but a correction to the text of the Regulations. The delegation invites the secretariat to check whether notice of this correction should be communicated.
