**Economic Commission for Europe**

Conference of European Statisticians

**Seventieth plenary session**

Geneva, 20-22 June 2022

Item 7 (c) of the provisional agenda

**Programme of work of the Statistics subprogramme of the**

**United Nations Economic Commission for Europe:**

**Programme planning documents for the Statistics subprogramme  
of the United Nations Economic Commission for Europe**

**Outline of key components of the programme of work of  
UNECE Statistics subprogramme for 2024**

**Note by the Secretariat**

**Introduction**

1. This document presents an outline of key components (objective, strategy and deliverables) of the programme of work of the Statistics subprogramme (“the subprogramme”) for 2024. These components are based on the subprogramme-related section of the ECE proposed programme budget for 2023. The Conference of European Statisticians (“the Conference”) is invited to consider this information and provide recommendations on these components, as necessary. Those modifications and/or member States’ recommendations agreed by the Conference and included in its decisions will be reflected in the proposed programme plan of the subprogramme for 2024. It will be prepared by the secretariat at the end of 2022 and included in the ECE proposed programme budget for 2024.

**Outline of key components of the programme of work**

**I. Objective**

2. The objective, to which the subprogramme contributes, is to advance official statistics at the national and international levels for evidence-based policymaking and assessing progress towards achieving the SDGs and to ensure the coordination of statistical activities in the ECE region under the Conference of European Statisticians.

## II. Strategy

3. The responsibility for the subprogramme is vested in the Statistical Division.
4. The strategy of the subprogramme is guided by the priorities and needs of member States and is based on the core interlinked functions: the streamlining of international statistical work in the ECE region through policy dialogue; methodological work to develop and promote guidelines and recommendations to enhance the quality of statistics; and statistical capacity development of ECE member States with less developed statistical systems.
5. To contribute to the objective, the subprogramme will:
  - (a) Promote in-depth statistical dialogue at the Conference of European Statisticians and expert meetings;
  - (b) Launch regional and country-specific initiatives related to methodological work to develop and disseminate statistical models, guidelines and recommendations to enhance the quality of statistics, to support modernization of national statistical offices and their changing role to become data stewards, and to promote the use of official statistics;
  - (c) Maintain and develop the ECE statistical database;
  - (d) Establish and strengthen partnerships between geospatial experts and statisticians to support the integration of statistical and geospatial information, in cooperation with statistical departments of other regional entities such as Eurostat, OECD, the European Free Trade Association, the Interstate Statistical Committee of the Commonwealth of Independent States and the Eurasian Economic Commission, as well as international specialized agencies active in the region;
  - (e) Facilitate the exchange of experiences and good practices in the field of population and housing censuses, price statistics and environment statistics, including adaptation owing to COVID-19 restrictions; and
  - (f) Provide support to countries in planning and conducting their census and developing their statistical capacity, including cross-cutting topics such as statistics for SDGs, statistical legislation, data collection, data integration, dissemination and human resource management.
6. The above-mentioned work is expected to result in:
  - (a) Improved statistical methodology and capacity of member States to measure and monitor the SDGs;
  - (b) Conduct of censuses by member States using innovative and efficient approaches that result in improved cost-efficiency, coverage, accuracy, comparability and timeliness of dissemination of the census results;
  - (c) Improved capacity by member States to provide the statistics necessary to develop evidence-based policies to manage their post-pandemic recovery.

**Commented [MC1]:** This addition was recommended by the CES Bureau when the document was reviewed in February 2022.

## III. Deliverables to be implemented in 2024

7. The below table provides an outline of deliverables that are expected to contribute to the attainment of the objective stated above.

Category and subcategory	2023 planned	2024 planned
<b>A. Facilitation of the intergovernmental process and expert bodies</b>		
<b>Parliamentary documentation</b> (number of documents)	<b>81</b>	<b>81</b>
1. Conference of European Statisticians	43	43

2. Groups of experts on statistical issues	38	38
<b>Substantive services for meetings</b> (number of three-hour meetings, per entity/theme)	<b>85</b>	<b>85</b>
3. Conference of European Statisticians and its Bureau	13	13
4. Groups of experts on statistical issues	72	72
<b>B. Generation and transfer of knowledge</b>		
<b>Field and technical cooperation projects</b> (number of projects)	<b>1</b>	<b>1</b>
5. On social and economic statistics	1	1
<b>Seminars, workshops and training events</b> (number of days)	<b>6</b>	<b>6</b>
6. Workshops on social and economic statistics	3	3
7. Workshops on innovating statistical production	3	3
<b>Publications</b> (number of publications)	<b>7</b>	<b>7</b>
8. On topics covering multiple statistical areas	1	1
9. On social, environmental and economic statistics	6	6

**C. Substantive deliverables**

**Consultation, advice and advocacy:** advisory services for more than 100 government officials (staff of national statistical systems) and other stakeholders of countries of Eastern Europe, the Caucasus and Central Asia and South-Eastern Europe on economic, social, demographic and environment statistics, statistics for the SDGs, geospatial statistics and institutional issues and modernization of official statistics (4 countries).

**Databases and substantive digital materials:** ECE statistical databases (SDG, population and gender statistics database; economic statistics database); hosting of the transport and the forestry databases which are updated and maintained by subprogrammes 2 and 7, respectively).

**D. Communication deliverables**

**Outreach programmes, special events and information materials:** leaflets and other promotional materials.

**External and media relations:** articles for the "UNECE Weekly" and "EnvStats" newsletters for regional access.

**Digital platforms and multimedia content:** interactive digital workspaces (wikis, including the ECE census wiki); website of the subprogramme.
