MIPAA+20

MIPAA/RIS 4th cycle review and appraisal

Method of reporting

Ageing-related legislation & policies

- Bottom-up participatory approach
- Quantitative and qualitative data
- Reporting on policies, strategies, legislation and special programmes implemented towards the three goals of the Lisbon Declaration 2017
- 3-5 main achievements and challenges: 10 Commitments of MIPAA/RIS

Ageing indicators

22 statistical indicators on active ageing

Over time: 2000, 2010, 2020

- Labour market (older people's contribution through paid activities)
- Participation in society (older people's contributions through unpaid activities)
- Independent, healthy and secure living
- Capacity and enabling environment for active ageing
- Other indicators (if applicable)

Lisbon Declaration – 3 priority goals

MIPAA+20

Goal 1 – Recognizing the potential of older persons

Goal 2 – Encouraging longer working lives and the ability to work

Goal 3 – Ensuring ageing with dignity

MIPAA+20

Findings of the MIPAA review 2017-2022

Potential of older persons

- Enhanced mainstreaming ageing - better coordination, integration of ageing into national development strategies
- Improved involvement of older persons and their representatives in policymaking
- Opportunities for social and cultural participation, volunteering and physical exercise created
- Loneliness and social isolation addressed
- Actions to combat ageism and promote a positive image of ageing implemented

MIPAA+20

Findings of the MIPAA review 2017-2022

Longer working life

- Tailored support to older jobseekers provided
- Age-management and age-friendly workplaces promoted
- Lifelong learning - digital skills and literacy training expanded
- Pension systems further adjusted
- Financial sustainability and pensions adequacy advanced

MIPAA+20

Findings of the MIPAA review 2017-2022

Ageing with dignity

- Deinstitutionalization advanced
- Integration of care and support at local level improved
- Technologies and digitalization further leveraged
- Support for research and development of assisted-living technologies provided
- Alternative living arrangements expanded
- Prevention and protection of abuse and violence enhanced
- Attention to care workforce and informal carers enhanced
- Further dementia strategies and plans developed

MIPAA+20

Findings of the MIPAA review 2017-2022

COVID-19 response and older persons

Lessons learned

- Commitment for dignity and the right to health
- Need for enhanced information sharing
- Participation of older persons in decisions that affect them

MIPAA+20

Achievements and challenges

Progress achieved

- Employment and Pensions
- Health and Social Care
- Inclusion

Progress needed

- Long-term care
- Housing
- Inequalities and Poverty
- Discrimination and increased vulnerability

MIPAA+20

Outlook for the future

2022

2023

2024

2025

2026

2027

- Promote active and healthy ageing across the life course
- Make long-term care of choice accessible for all and support caregivers
- Mainstream ageing across all policies at all levels
