ModernStats World Workshop 2022
27-29 June, Belgrade Serbia

ModernStats World Workshop 2022

Knowledge,
information

Ideas to
share and
take home

Participate,
debate, have
your say!

Shape the
future of
ModernStats
together

Workshop programme

- ModernStats – Evolution
- ModernStats – Integration
- ModernStats – Implementation

Mixture of experience sharing and activities!

A few questions for all of us to keep in mind during the two and half days

- What are the challenges we face today and tomorrow?
- Is this useful to me?
- What do I need?
- What can I add?
- Do I agree with this?
- Do I have a different viewpoint or idea?
- How can all of this be more relevant to me in my statistical work?

What do we want to get out of this?

- Ideas on what:
 - Is relevant, important
 - Needs further development or needs to be changed
 - Is missing
 - Is not relevant anymore
- What would be useful to you in order to better understand the relationships and the interdependencies among the models and with other standards beyond ModernStats?
- What support do you need to better understand and more effectively implement the models?
- What future work is needed?

The most important thing is to...

Enjoy the workshop!
