Subject: Re: Decision VII/8n (Republic of Moldova) - plan of action

Dear Aarhus Convention Secretariat,

Hereby as a communicant representative on the case AAAC147 I like to inform you that recently the working group on implementation of the AC in the Rep.of Moldova was formed by the Minister of Environment and I am one of its members. My comments were taken into consideration when the plan was drafted, so I am satisfied and do not have any comment to its content.

I also believe, that the actions of the government of Moldova will not be limited by the implementation of this plan, but will be directed to the implementation of the whole convention, including the adoption and realization of the Action Plan on Aarhus like it is stipulated in the above mentioned Ministerial Order, with wide involvement of the interested public.

Sincerely,

Ilya Trombitsky
Executive Director
