New cycling signs

Cycle street notifies cyclists and drivers of other vehicles about entry to a road where special traffic rules apply to enhance the safety of cyclists. The inscription “cycle street” may be displayed below the symbols.

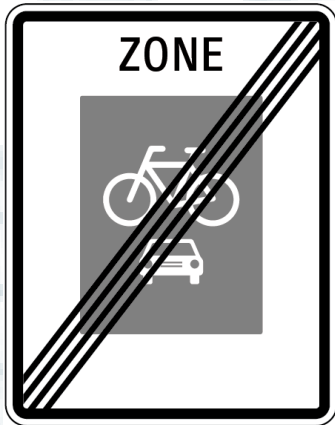

End of cycle street notifies cyclists and drivers of the end of a cycle street. This sign shall be identical to sign XXXX except that it shall be crossed by an oblique red band or, preferably, red parallel lines forming such a band sloping down from right to left. The band can be interrupted when crossing the symbols. If not interrupted, the red band shall be placed over the symbols.

New cycling signs

Cycle zone

End of cycle zone

New cycling signs

Non-compulsory cycle track notifies cyclists about entry to a track that is reserved for them, and notifies drivers of other vehicles that they are not entitled to use this track. Cyclists are not required to use this track.

The inscription “cycle track” may be displayed below the symbol.

End of non-compulsory cycle track notifies cyclists of the end of a non-compulsory cycle track. This sign shall be identical to sign XXXX except that it shall be crossed by an oblique red band or, preferably, red parallel lines forming such a band sloping down from right to left. The band can be interrupted when crossing the symbol. If not interrupted, the red band shall be placed over the symbol.

New cycling signs

Cycle crossing (TBD)

Cycle and pedestrian crossing (combined)

New cycling signs

Commercial cycles and other vehicles that transport passengers and goods (TBD).

Thank you
