

Working Party on Noise and Tyres (GRBP)

General information and WP.29 highlights

- Next session
 - **The next session is provisionally scheduled from 7 (p.m.) to 10 (a.m.) February 2023**
 - **The deadline for the submission of official working documents is 14 November 2022**
 - For new pictures with notes, all text for translation should be editable. No text as an embedded image!
 - Copyright/intellectual property issues: the submitter of any document (including a presentation) may be invited to confirm that publication of this document on the UNECE website and further use does not violate any copyright/intellectual property rights and that the submitter agrees to hold UNECE harmless of any copyright/intellectual property claims concerning this document. If a document contains materials of third parties, permission of these parties may be required.

Highlights of the recent session(s) of WP.29

March 2022

- WP.29 adopted the 2022 Programme of Work
- WP.29 extended the mandates of the two IWGs on Measurement Uncertainties (MU) and on Wet Grip Performance for Tyres in a Worn State until September 2023 and January 2024, respectively
- At request of GRBP Chair, some GRBP amendments were postponed to the June 2022 session of WP.29
- See report in ECE/TRANS/WP.29/1164

June 2022

- AC.2 discussion on the election procedures
- WP.29 discussion on the use of UI in the context of DETA
- Postponed GRBP amendments adopted
- IWG MU reported on the general approach how to handle measurement uncertainties in UN Regulations. WP.29 invited other GRs to consider if the proposed approach could fit UN Regulations under their umbrellas. WP.29 also felt that the document of reference could serve as a guide for technical services when performing measurements.
- See report in ECE/TRANS/WP.29/1166
