**Subject:** Re: Decision VII/8p (Spain) - plan of action

Dear colleagues,

In connection with the plan of action regarding the implementation of the recommendations contained in paragraph 2 (a) of decision VII/8, it is not enough to make communications of some decisions of the Supreme Court case law.

As well as with the decision paragraph 2 (b) of decision VII/8, it is essential to amend national legislation related to legal aid in environmental matters too.

Kind regards,

Alexandre Peñalver i Cabré
