

CONFERENCE OF EUROPEAN STATISTICIANS

Expert Forum for Producers and Users of Climate Change-Related Statistics
29-30 September 2022, Geneva

GLOBAL SET OF CLIMATE CHANGE STATISTICS AND INDICATORS

Reena Shah, Chief of the Environment Statistics Section, United Nations Statistics Division

Abstract

The Global Set of Climate Change Statistics and Indicators was adopted at the fifty-third session of the United Nations Statistical Commission in March 2022 as the framework for climate change statistics and indicators to be used by countries when preparing their own sets of climate change statistics and indicators according to their individual concerns, priorities and resources. The presentation will provide an overview of coordination, methodology and capacity development activities.
