**Total population growth:** 3.18 million people
Changes in the format of national censuses

Sources like today

- Continuous bypass of the population by interviewers
- Using Administrative Sources
- Use of cartographic materials
- Online mode
- Long-term treatment for 1-2 years

Traditional censuses 1999, 2009, 2021
- Every 10 years
- Budget burden

Sources as will be from 2024

- Based on current statistical registers
- Integration with information systems of state bodies and organizations
- Use of alternative sources of information
- Minimum human input
- Operational generation of results

Regular updating of registers (population, housing stock, agriculture, business)
- Regular
- With a minimum burden on the budget
