

Developing UNFC & UNRMS fit for purpose

Stig-Morten Knutsen
Vice-Chair, EGRM
Norwegian Petroleum Directorate

RESOURCE MANAGEMENT WEEK 2022
ENABLING SUSTAINABILITY PRINCIPLES IN RESOURCE

UNECE

Everything Has Its Time

The results vs the tool

- Is this the time to fully deploy the tools?
 - If not – when is?
- Development of a good tool needs testing – the best way is to apply it
- User guides fit for purpose
 - Outreach
 - Digital platforms

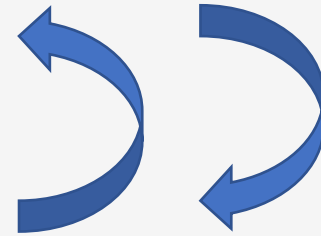

Common denominator

Simplify

- Buy in and alignment from experts
- Buy in from stakeholders and the public
- What's in it for me?
 - Elevator pitch

There is a purpose

How do we explain the purpose?

- We are already in agreement of the 2030 Agenda for Sustainable Development
- The common language is UNFC / UNRMS
- In some (many) settings: communicate the purpose instead of the system

Thank you!
