Mutual trade in Kazakhstan

Astana, October 2022

Features of producing foreign and mutual trade statistics in Kazakhstan

BNS ASPR

SRC MoE

Statistical reporting form 1-TS
"Report on Mutual Trade in Goods with the Eurasian Economic Union member-states"

Customs declarations

Submitted by legal entities and (or) their structural and independent subdivisions, individual entrepreneurs, as well as individuals carrying out export and (or) import operations with the Eurasian Economic Union member-states

Methodology and legal framework

"Statistics of international trade in goods: concepts and definitions" (IMTS-2010)

"Methodology for maintaining statistics of foreign and mutual trade in goods of the EAEU member-states"

Approved by the Decision of the Board of the Eurasian Economic Commission No. 210 dated December 25, 2018

"Methodology for maintaining statistics of international trade in goods"

Approved by the Order of the Chairman of the SC MNE RoK No. 204 dated 14 December 2015

"Commodity nomenclature of foreign economic activity of the EAEU"

Decision of the EEC Council No. 80 dated September 14, 2021

Law "On State Statistics of the Republic of Kazakhstan" dated March 19, 2010 No. 257- IV

Entrepreneurial Code of the Republic of Kazakhstan dated October 29, 2015 No. 375- V

Code of the Republic of Kazakhstan "On Administrative Offenses" dated July 5, 2014 No. 235- V

Ensuring data completeness and quality

Implementation of arithmetic-logical control:

When respondents file Statistical Form 1-TS online, they have various ALCs by indicators: product code, country of destination/departure/origin, product weight, additional unit of measure, product value, mode of transport, date of the contract, etc.

Monthly verification of average prices per weight unit and additional unit of measure. Reconciliation of data with other statistical forms of the Bureau.

Annual updates of the “Quality Report on Statistics of Foreign and Mutual Trade” on www.stat.gov.kz

Reference:

In 2021, almost 90% of respondents (154 thousand out of 172 thousand) reported online using Form 1-TS

Reconciliation of data with the government agencies of Kazakhstan:

State Revenue Committee, Ministry of Finance of Kazakhstan

Information on the goods exported to the territory of EAEU member-states (from import declarations of goods and payment of indirect taxes received from the tax authorities of the EAEU member-states) and the import of goods from the territory of EAEU member-states from the import declarations of goods and payment of indirect taxes (Form 328.00)

Ministry of Agriculture of Kazakhstan

Information on veterinary certificates
Information on phytosanitary certificates

National Bank of Kazakhstan

Information on Kazakhstan residents who have concluded contracts with residents of EAEU member-states, with the assigned reference numbers

International activity

- Trade Map Comtrade UN
- International Road Federation
- Joint Organizations Data Initiative (Jodi)
- International Tropical Timber Organization (ITTO)
- International Energy Agency under the OECD
- United Nations Food and Agriculture Organization (FAO)
- The World Bank

International data exchange

Memoranda of understanding with the Federal Customs Service of Russian Federation

Memorandum of understanding with the National Statistical Committee of Kyrgyz Republic

Integration of IS 1C "Accounting" with IS "e-Statistics"

Advantages of the system

It builds into the traditional 1S:
Accounting

It does not require additional documents
to be completed

It automatically produces 1-TS Report
generation

1-TS Report is downloaded from 1S and
uploaded to Statistics' portal

It does not require programmers'
involvement

It does not change configuration

Integration of IS "e-Statistics" with the module "Accompanying invoices for goods" of IS "Electronic Invoices"

In order to reduce the burden on respondents, eliminate duplicate reporting and ensure the quality of statistical information, the Bureau is planning this integration, to subsequently cancel the statistical Form 1-TS.
