Item 7(d) of the provisional agenda

Future work of the Committee on Sustainable Energy:

Approval of documents

**Work Plan of the Group of Experts on Renewable Energy for
2022-2023**

Status of implementation of the Work Plan of the Group of Experts for 2022-2023

A. Tracking progress in the uptake of renewable energy sources

Deliverables and Timeline:

- a) A new edition of the REN21 ECE Renewable Energy Status Report (dependent on extrabudgetary funding), by December 2023;
- b) A report on the status of implementation of renewable energy action plans (dependent on extrabudgetary funding), by December 2023;
- c) Policy and business recommendations through the organization of or participation in workshops on selected local energy issues, mainly raised by dedicated Renewable Energy Hard Talks, bringing together key stakeholders from the public and private sectors, by December 2022;
- d) A report on subsidies and their impact on financing renewable energy uptake in selected countries of the region (dependent on extrabudgetary funding), by December 2023.

Status of implementation of the Work Plan of the Group of Experts for 2022-2023

B. Exchange of experiences, good practices, and multi-stakeholder dialogues on how to increase the uptake of renewable energy

Deliverables and Timeline:

- a) Ad hoc workshop or discussion within the annual session of the Group of Experts and written contributions on adaptive and cross-cutting policy options, by December 2023;
- b) A webinar or discussion on adapting market design to high shares of variable renewable energy in selected countries in the ECE region (dependent on extrabudgetary funding for the assessment of the market design adaptation), by December 2022;
- c) Present information on policies, experiences and good practices in countries of the region during four workshops and seminars organized by relevant organizations (dependent on extrabudgetary funding for travel costs), by December 2023;
- d) Hard Talks and/or follow-up activities in ECE countries on a demand-driven basis with the participation of key stakeholders, enhancing cross-sectoral synergies and strengthening cooperation within the UN system and with other international actors (dependent on extrabudgetary funding), by December 2023;
- e) Promote capacity-building activities on renewable energy project development and disseminate relevant material and information on projects at workshop and/ or matchmaking event(s) among developers, investors and financial institutions. This material may include a possible guide on the integration of environmental aspects and the promotion of a renewable energy-water nexus approach in project development (dependent on extrabudgetary funding), by December 2023.

Agenda item 8

Status of implementation of the Work Plan of the Group of Experts for 2022-2023

C. Cross-cutting cooperation to strengthen integration of renewable energy in future sustainable energy systems

Deliverables and Timeline:

- a) Documentation and/or case studies that supports UNFC to be applied to renewable energy sources and/or promotion of the application of UNFC to renewable energy to specific renewable energy meetings or workshops, by December 2023;
- b) Dissemination of good practices and policies of renewable energies with the consideration of all kind of gases and/or green hydrogen/biomethane within future energy systems in countries of the region, by December 2023;
- c) Documentation on water-energy nexus challenges and possible guidelines for renewable energy development, including on large hydropower (dependent on extrabudgetary funding), by December 2023;
- d) Identification of one or two renewable energy experts to participate in the Task Force on Digitalization in Energy of the Group of Experts on Energy Efficiency, by December 2022;
- e) Dissemination of good practices and policies of bioenergy development in ECE countries (dependent on extrabudgetary funding), by December 2023;
- f) Case studies on the Net Energy Metering mechanism and relevant regulations implementation for the ECE region (dependent on extrabudgetary funding), by December 2022.

Status of implementation of the Work Plan of the Group of Experts for 2022-2023
