

Updated Content and Schedule for EDR/DSSAD IWG Deliverables

In preparation for the 188th session of WP.29, the EDR/DSSAD IWG provides the following updates to the IWG's EDR activities under GRSG.

These updates are provided in markups to the EDR sections of Table 6 from ECE/TRANS/WP.29/2022/1/Rev.1, Programme of Work of the World Forum for Harmonization of Vehicle Regulations (WP.29) and its Subsidiary Bodies (next page).

The deletion of the sections regarding the common elements document and development of R160 reflects the fact that the EDR/DSSAD IWG considers these deliverables to be completed. ('Complete EDR Common Performance Elements for 1958/1998 Contracting Parties' by ECE/TRANS/WP.29/2020/100 and /123/Rev.1 and 'Corrections/amendments to existing EDR R160.00 and R160.01' by ECE/TRANS/WP.29/2022/25/Rev.1 and /26).

The revised completion dates for the Common Technical Elements document for the creation of a UN regulation on EDR for heavy duty vehicles (trucks and busses) reflect the increased complexity associated with identifying and triggering on actual crash events for many heavy duty vehicle accident scenarios relative to light duty vehicles.
