Title of contribution	<i>Quarterly data collection on living conditions in EU</i>
Author Name	<i>Rasim Ryustem, Estefania Alaminos Aguilera, Agata Kaczmarek-Firth</i>
Author Organization	<i>EUROSTAT</i>
Topic	<i>Social policies and data</i>
Summary:	
<p><i>Quarterly data collection on living conditions (QLC) in EU was developed by joint efforts of Eurostat and EU Members States (MSs) during the COVID-19 pandemic period. The aim of the new data collection is to provide timely short term data on social inclusion and living conditions which should fill the need for quarterly data and to deliver important information for monitoring the recovery after COVID-19 crisis. The QLC was launched in the middle of 2021 and a total of 11 EU Member States have joined the initiative. The first data was published in the end of June 2022 and covered 8 EU-MSs. The presentation will provide practical and methodological information about QLC as well as the first results of the new data collection.</i></p>
