Challenges and possibilities in Asker

Transport and mobility

- creating solutions for better flow, lessen the emissions, enhance wellbeing and health

Circular models

- We use too much resources. We need circular models within all areas; seeing the whole value chain.

Social equality – leaving no one behind

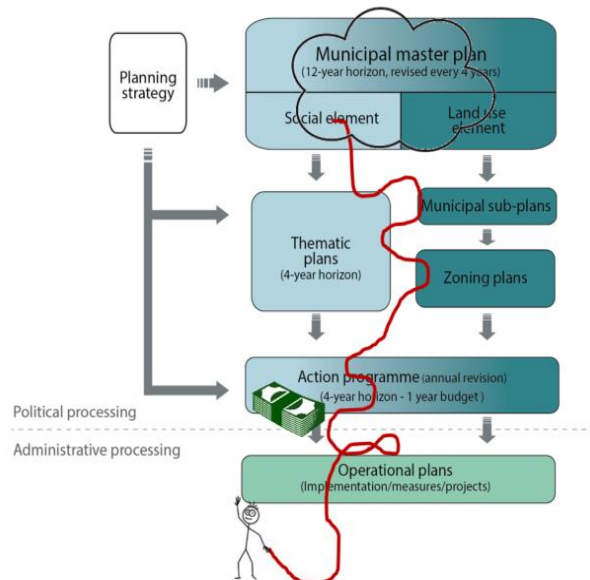

Digital infrastructure and smart technology

- The «Greenest» area in the KPI. Are we using our infrastructure in a way that enhances sustainable development? How can digital infrastructure and smart technology drive a sustainable development?
