Title of contribution	<i>Use of administrative source of income</i>
Author Name	<i>Natalya Belonossova</i>
Author Organization	<i>Bureau of National Statistics of the Republic of Kazakhstan</i>
Topic	<i>Complementing survey methods, and use of alternative data sources</i>
Summary:	
<p><i>Kazakhstan will share its experience in calculating nominal cash income at the macro level using data from administrative sources. We plan to present for discussion a comparative analysis of income indicators obtained from the results of the household budget survey and income calculated at the macro level. In addition, work has begun in Kazakhstan on the use of big data in the production of statistical indicators.</i></p>
