

COMPLIANCE WITH REPORTING OBLIGATIONS

Note by the secretariat

This document contains information referred to in the twenty-fifth report of the Implementation Committee (ECE/EB.AIR/2022/2). This information provided the basis for the Committee's evaluation of compliance by Parties with their obligation to report emission data.

The document presents the status of emission data reporting as of 27 July 2022 and contains nine tables reflecting reporting under the seven Protocols in force: the 1985 Sulphur Protocol, the Protocol on Nitrogen Oxides (Protocol on NO_x), the Protocol on Volatile Organic Compounds (Protocol on VOCs), the 1994 Protocol on Sulphur, the Protocol on Heavy Metals, the Protocol on Persistent Organic Pollutants (Protocol on POPs) and the Protocol to Abate Acidification, Eutrophication and Ground-level Ozone (Gothenburg Protocol). Reporting by Parties to the amended Gothenburg Protocol on PM_{2.5} emissions is included in Table 8. The tables were prepared based on the information provided by the EMEP Centre on Emission Inventories and Projections (CEIP).

The "X's" in the tables correspond to submission of emission data by each Party to CEIP with respective notification sent to the secretariat. In addition to reporting of national totals, several tables indicate submission of gridded data for pollutants as required by the respective Protocol. Table 7.1 also presents data on projections reporting under the Gothenburg Protocol for the years 2020, 2025 and 2030. National total emission data is presented on the basis of 'fuel sold' and 'fuel used' for three of the Parties to the Gothenburg Protocol¹ that may choose and have chosen the 'fuel used' option for compliance purposes.

¹ These three countries are Belgium, Switzerland and the United Kingdom of Great Britain and Northern Ireland. Further countries entitled to this option are Austria, Ireland, Lithuania, Luxembourg and the Netherlands.

STATUS OF EMISSION DATA REPORTED BY PARTIES TO THE PROTOCOLS

Table 1:
Emissions reported by Parties to the 1985 Protocol on Sulphur

	Party	Base year	2019	2020

x Data received
 - No data received (or blank cells in the reporting table)
 n/a Reporting obligation not applicable
 * The value reported under projections is the national total value for the entire territory, which is based on fuel sold. Only the United Kingdom report the projected value based on fuel used.
 Parties to the Gothenburg Protocol within the geographical scope of EMEP shall regularly update their projections and report every four years from 2015 onward their updated projections, for the years 2020, 2025 and 2030.
 ** Party outside the geographic scope of EMEP

According to the guidelines there are 8 countries that can report emissions on the basis of fuel used for compliance purposes under the GP.
 6 of these are Parties to the Protocol and are indicated in blue above; the non-submission of "fuel used" data does not indicate a case of non-reporting

PEMA - Pollutants Emissions Management Area
 The US has obligations under the amended GP for PEMA's instead of the entire territory; see below for the difference in PEMA's per pollutant

SOx	includes all of U.S. except Hawaii and Alaska
NOx and VOC	includes all of U.S. except Hawaii
PM2.5	30 states and the District of Columbia: Alaska, Connecticut, Delaware, District Of Columbia, Idaho, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming
