**Lisbon, October 2022**

**Nomination of Professor António Carmona Rodrigues for the Compliance Committee under the Protocol on Water and Health**

I would like to take this opportunity to express the support of the Ministry of Environment and Climate Action of Portugal to the candidature of Professor António Carmona Rodrigues for the Compliance Committee under the Protocol on Water and Health.

Professor Carmona Rodrigues has 40 years of experience in the water sector, is an internationally recognized senior Engineer, with a relevant academic experience, who have assumed during its long carrier, also relevant public function, at local and central level.

Its experience in the water sector, namely in the fields of water quality and safety, are decisive factors for this candidature, accompanied by human and social characteristics that we believe will strongly contribute for a successful mandate within the Committee.

Therefore, it is my firm conviction that the presence of Professor António Carmona Rodrigues, as a member of the Compliance Committee will guarantee the level of quality, the necessary qualifications and the level of commitment envisaged by the Protocol, as well as it will I guarantee that Portugal continues contributing to this process with quality and firmness.

**Yours faithfully,**

**Alexandra Ferreira de Carvalho**  
**Secretary-General for Environment**
